**THIS CERTIFICATE IS NOT VALID UNLESS IT IS SIGNED AND STAMPED OR SEALED. FOR ONE USE ONLY**

**DECLARATION (TO BE SIGNED BY OWNER OR AGENT FOR OWNER)**

I, the undersigned .....  
 (owner or the agent of the owner who is responsible for the animal(s) described above)

Declare that the animal will accompany me, the owner, or the agent that I have designated to be responsible for the animal(s) on my behalf and are not intended to be sold or transferred to another owner. I further declare that the animal(s) \*has been\*/\*have been\* continuously resident in the JAMAICA for the past six months prior to my arrival in the Turks and Caicos Islands and that the animal (s) is/are \*spayed\* or \*neutered\*.

\*Delete as applicable

Date: \_\_\_\_\_ Signature: \_\_\_\_\_

**Notes**

**A. Breeder’s Licence**

Persons granted an animal breeder’s licence from the Department of Agriculture, Turks and Caicos Islands are exempted from having their dogs spayed or neutered;

**B. Prohibited Dog Breed List**

These breeds of dogs are prohibited from being imported into the Turks and Caicos Islands: Akita, any breed of Bulldog, any breed of Mastiff, any Pit bull including the American Staffordshire Terrier, The Staffordshire Bull Terrier and a mixed- breed dog which has any Pit Bull lineage, Bandog, Beauceron, Canary dog or Presa Canario, Doberman, Dogo Argentino, Fila Brasileiro, Japanese Tosa, Jondo, Kuvasaz, Rhodesian Ridgeback, Roman Fighting Dog, Rottweiler, South African Boerboel, any dog which appears to have been bred for fighting, and all non-domestic canine species and hybrids of such;

**C. Screwworm Treatment**

- i. For animals rejected for export by the Official Veterinarian for the presence of wounds with egg masses or larvae of New World Screwworm (*Cochliomyia hominivorax*) they must be placed in quarantine and treated with 5% coumaphos wettable powder sprinkled directly onto the wound at 2–3-day intervals until the wound has healed and free from screwworm prior to being given export permission;
- ii. any animal found with wounds upon arrival will be refused biosecurity clearance and must leave the Islands within 48 hours;

**D. Animal (s) in Transit**

In the event that during the course of transporting the animal to the Turks and Caicos Islands, it was transshipped via another country and remained there for twenty-four (24) hours and over, a veterinary certificate from the Veterinary Authority or from the Quarantine Officer must be obtained stating that the said animal (s) did not leave the quarantine area, noting the period of time in quarantine and the condition of the animal (s);

**E. Documentation**

- i. If additional sheets of paper or supporting documents are attached to this international health certificate, those sheets of paper or document shall also be considered as forming part of the original of the international health certificate by the application of the signature and stamp of the official veterinarian, on each of the pages;
- ii. When the international health certificate, including additional sheets referred to in (i), comprises more than one page, each page shall be numbered, (page number) of (total number of pages), at the end of the page and shall bear the certificate reference number that has been designated by the competent authority at the top of the pages; and
- iii. The animals must be accompanied at the point of entry by all relevant documents (import permit, and originals of the International Health Certificate, vaccination certificates, Spay/neuter certificates, Laboratory Test results, etc.) in order to facilitate biosecurity clearance.

**Explanations**

- I.6. “ISO code” refers to the international standard two-letter code (ISO 3166-1 Alpha-2 Code) for a country produced by the International Organization for Standardization.
- I.9. Description of commodity: Please indicate the name, sex, breed, colour, special markings or any other feature that would identify the pet (s)
- I.14. Species name (Scientific Name):
  - a. Canine (*Canis familiaris*) if the pet is a dog, Feline (*Felis catus*) if the pet is a cat
  - b. System of identification references either a microchip or tattoo
